To Whom It May Concern:

The Pittsburgh Chapter of ASM International is offering a \$1500 scholarship for high school seniors who enroll in an engineering program of study. This is an academic scholarship known as the Katz-Soler Scholarship. The most important part of the application is the essay, but grades, test scores, awards, honors and activities are also considered. Enclosed is the application for this scholarship. The student must enroll in an engineering program and must provide proof of this enrollment for the check to be issued.

Please forward the applications to any students who would be interested in this opportunity. If you have any questions, please contact me.

Sincerely,

Joe Muha
